

2024 Campaign Priorities

Supporting Pro-Democracy candidates who will preserve our democracy by fighting to safeguard free and fair elections, protecting the right to vote, and increasing voter access.

Elections Under Attack

This year, the Republican House majority pushed legislation to make our elections less secure by:

- Denying funding for Election Security Grants.
- Cutting funding for the Election Assistance Commission by \$8 million.
- Introducing an Anti-Voter, Corporate Interest, Extremist bill—their so-called ACE Act—that was crafted for election deniers and undermines our democracy.

Defend the Vote, Standing Up for Democracy

Defend the Vote invests in candidates who support:

- The Freedom to Vote Act—which includes Rep. John Lewis' Voter Empowerment Act—that protects the right to vote, supports election workers, bans dark money, and stops extreme gerrymandering.
- The John R. Lewis Voting Rights Advancement Act that restores the power of the Voting Rights Act.
- Election funding and election administrators so everyone can vote in safe, accessible elections.
